HR Department & Recruitment Team

Adira Finance

Head Office (Sudirman, South Jakarta)

Subject: Application for Management Trainee Program

Dear Hiring Manager,

I am writing to express my strong enthusiasm for the Management Trainee program at Adira Finance. As a Computer Engineering graduate from Institut Teknologi Sepuluh Nopember (ITS) with a 3.43 GPA, I offer a unique combination of technical problem solving and strategic project planning that makes me an excellent fit to support your managerial teams and business operations.

Instead of simply executing tasks, I pride myself on driving systemic improvements. During my tenure at PT. Aldzama, I managed multiple software deployments across 13 active projects. Acting as both the strategic planner and the technical executor, I identified server inefficiencies and proactively designed and implemented a load-balancing system using Docker, alongside comprehensive server optimizations. This initiative required rigorous research, cross departmental coordination, and high-level reporting skills directly applicable to understanding workflows and supporting your management team.

Furthermore, my background extends into administrative and personnel management. Serving as the Head of HR for a campus organization, I managed the end-to-end employee lifecycle for over 40 staff members. I am highly comfortable assisting with administrative duties, conducting research, and creating actionable final reports. I fully meet all program criteria, including the commitment to the employment bond and readiness to work at the Sudirman Head Office.

I am highly eager to bring my analytical mindset and management experience to Adira Finance. Thank you for your time and consideration. I look forward to the possibility of an interview to discuss how I can contribute to your company's continuous growth.

Sincerely,

Syahrul Fathoni Ahmad
